PRODUCTS WITH A MISSION®

ICONS

MADE IN USA: Compliant with the Buy American Act mandating "substantially all" materials, manufacturing & labor are of U.S. content

CE: Meets the requirements of the European Medical Device Directive and appropriate Quality System standards

LATEX FREE: Product is considered latex free and therefore safe for latex sensitive individuals

STERILE: Product is sterile - sterility guaranteed unless packaging is opened or damaged

RED TIP TECHNOLOGY®: Specifically branded with NAR's signature Red Tip Technology® packaging. Product packaging has been engineered for less-than-optimal, often hostile conditions that exist when our equipment is needed the most

NEW PRODUCTS: Marks the newest products throughout the catalog, making them easily recognizable as our newest innovations

Table of Contents

volume 18 • issue 1

M.A.R.C.H. Products

Products designed to address Massive Hemorrhage, Airway Management, Respiratory Support, Circulation/Vascular Access and Hypothermia Prevention

4

Combat Casualty Response Kits • CCRK®

Kits designed to meet the needs/challenges of our customers and to address the leading causes of potentially preventable death

22

DoD Bleeding Control Response Kits • D-BCRK

Individual kits, packs and stations designed to equip bystanders and first responders with the essential medical gear needed to help save lives

48

TAC-EVAC

The most effective and highest quality evacuation platforms and accessories for use in the tactical environment

52

Medical/Surgical Products

Medical and surgical equipment for use in austere environments, during prolonged field care situations and in forward operating field hospitals

60

Rescue Equipment

Includes an array of rescue products ranging from lightweight, versatile Pegasus® Ropes to tactical lights and accessories

74

Treatment Support

From personal protection products to splinting and immobilization products to help from the point of injury throughout the entire continuum of care

86

Training Products & Services

NAR Training Course Overview • Products designed to train users on TCCC protocols to reduce preventable death at the point of wounding

97

Product Index

Product offerings indexed by name, NSN number, and Item number for quick reference and information

AAJT-S Abdominal Aortic and Junctional Tourniquet -STABILIZED

- Easy to use and quick to apply – Lightest, most compact junctional tourniquet on the market
- Stabilizes the pelvis in addition to stopping bleeding
- Large area of effective pressure for greater reliability
- Provides stable and complete occlusion of blood flow to the lower extremities, upper extremities, or pelvis
- Can be applied at junctional sites (inguinal, axillary) or mid-abdomen
- Demonstrated ability to remain in place and effective during patient movement
- Similar hemostatic efficacy to Zone 3 REBOA¹

LIFEWARMER™ Quantum™ IV Fluid & Blood Warming System

- **Lightweight** The Quantum™ has the lightest operational weight of any portable blood & fluid warming system (Total Operational Weight: 22 oz)
- **Powerful** Warms two units of 39°F refrigerated whole blood at 100mL/min+ on a single charge
- **Compact** Fewest components to carry (three)
- **Fast** Warm-up time of only 24 seconds
- **Intuitive** The thermal transfusion/infusion set looks, handles, and sets up/primes like any conventional IV set
- **Safe** Tested safe for blood, blood products & IV solutions
- **Effective** The system is plug-and-play for ease of setup under stressful conditions such as tactical field care (only two connection points, with no plug orientation or set-up order requirements – system status constantly visible at a glance)
- **Complete** Does not require additional standard transfusion or infusion set – all other warmers do
- **Tactical** Only system FDA cleared allowing easy disable of audible alerts to protect operators in combat

COMPLETE QUANTUM SYSTEM CONTENTS:

1 x Quantum Charger

1 x Quantum Battery

1 x Quantum Controller

2 x TTS-B Thermal Transfusion Set - Blood
(Blood, blood products & IV solutions)

SPECIFICATIONS

Total Operational Weight: 22 oz
(Quantum™ Controller, Battery & TTS-B)

Battery: 16 oz

Controller: 3 oz

Battery Charger: 22 oz

Controller Cover: 0.23 oz

Thermal Transfusion Set (TTS-B): 2.7 oz

QUANTUM COMPLETE SYSTEM

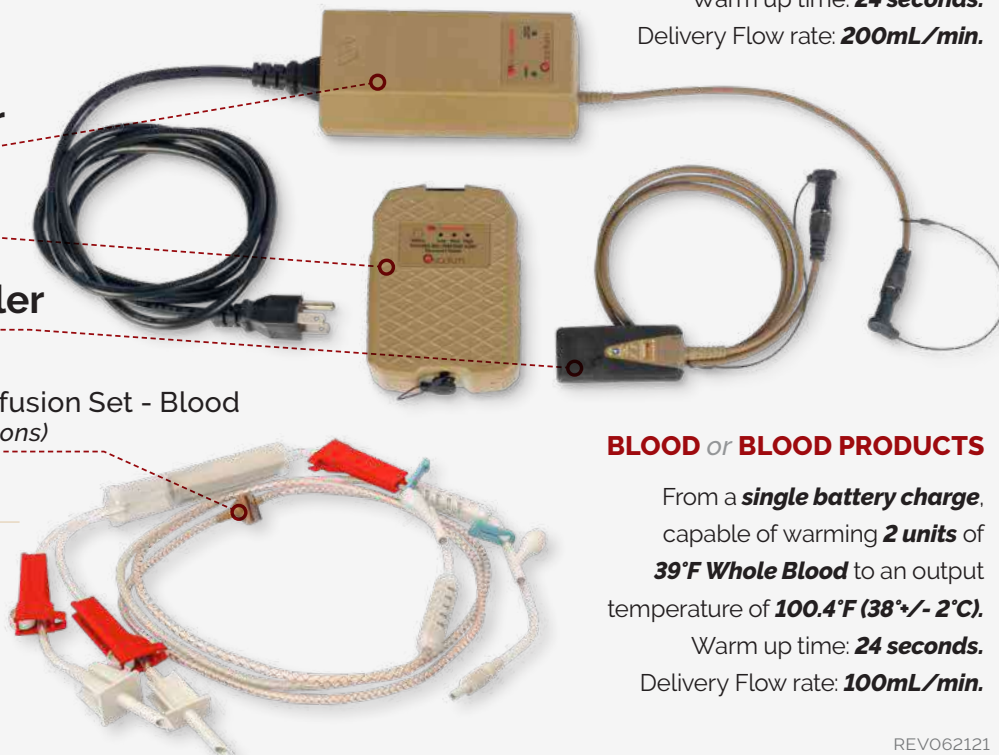

ITEM #	NSN #
35-0006	6515-01-693-7810

OPERATIONAL CAPABILITIES

IV FLUIDS From a **single battery charge**, capable of warming **1700 mL** of **68°F IV fluids** to an output temperature of **100.4°F (38°/- 2°C)**.

Warm up time: **24 seconds**.

Delivery Flow rate: **200mL/min**.

BLOOD or BLOOD PRODUCTS

From a **single battery charge**, capable of warming **2 units** of **39°F Whole Blood** to an output temperature of **100.4°F (38°/- 2°C)**.

Warm up time: **24 seconds**.

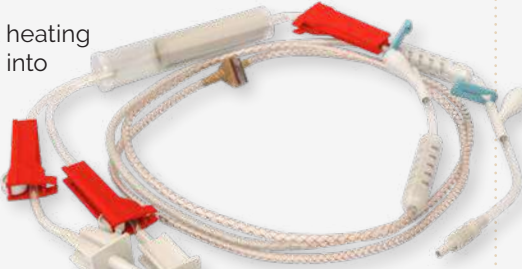

Delivery Flow rate: **100mL/min**.

TTS-B Thermal Transfusion Set

- Compatible with whole blood, component therapy (including FDP), colloids, and isotonics
- Similar size and weight to traditional IV tubing
- Intelligent sensing & heating elements integrated into the walls of the tubing set
- No disruption to the fluid path or laminar flow of the fluid
- Easy bi-directional connection to the Quantum Controller

SPECIFICATIONS

TTS-B package (each): 6.5 in. x 11 in.
Tubing Length: 80 in.
TTS-B Wgt (each): 2.6 oz
Packaged Wgt (2 TTS-B & box): 11 oz

- 1 x Eldon Card
- 1 x Interlink Injection Site Needle
- 1 x Blood Transfer Device
- 2 x Vacutainer, Gold Top (5ml)
- 1 x Vacutainer, Purple Top (5ml)
- 2 x Vacutainer, Pearl Top (5ml)

Recipient Module:

- 1 x 3 Way Stopcock
- 1 x Eldon Card
- 1 x Interlink Injection Site Needle

*FBTK Complete:

Contains all components of *FBTK Basic* & *Blood Surveillance Module*

LifeFlow® FLUID INFUSER

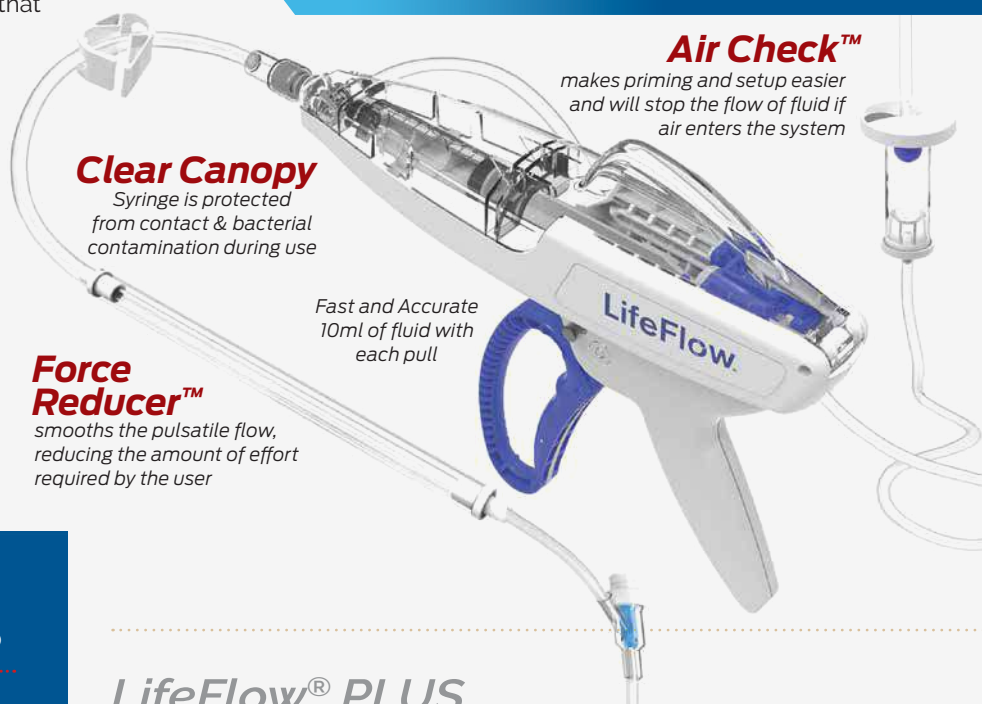

- Hand-operated, rapid infusion device that allows health care providers to deliver fluids quickly and effectively
- Deliver 500ml of fluid in less than 2 minutes through a 20G IV catheter
- Designed to protect the syringe from bacterial contamination
- Can be operated with one hand

SPECIFICATIONS

12 in. x 7.5 in. x 2.75 in.
Weight: 0.95 lb

LIFEFLOW INFUSER

ITEM #	NSN #
30-0286	

Clear Canopy™

Syringe is protected from contact & bacterial contamination during use

Force Reducer™

smooths the pulsatile flow, reducing the amount of effort required by the user

Fast and Accurate
10ml of fluid with each pull

Air Check™

makes priming and setup easier and will stop the flow of fluid if air enters the system

Improve Resuscitation Workflow with LifeFlow®

> RESUSCITATE

500 ml in < 2 minutes
Stay with Your Patient

Deliver first bolus quickly to reverse hypotension in patients with shock

- Provide active resuscitation
- Maintain control over delivery

> RESTORE

Improve Perfusion / Reverse Shock

Assess using vitals & bedside markers of perfusion, decide if additional fluid bolus is needed.

Early fluids more rapidly reverse shock & **improve outcomes**.¹⁻³

> REASSESS

Rapid Decision / Disposition

Each bolus delivered provides an opportunity to evaluate and determine next steps.

Faster resuscitation may lead to:

- Less mechanical ventilation⁴
- More rapid disposition
- **Less donning/doffing of PPE**

LifeFlow® PLUS BLOOD & FLUID INFUSER

- Hand-operated, rapid infusion device that allows health care providers to deliver fluid & blood products quickly and effectively
- Deliver 500ml of fluid in less than 2 minutes through a 20G IV catheter
- Deliver 1 unit of whole blood in 2 minutes
- Goes from the field to the hospital
- Can be operated with one hand
- Handle and tubing packaged together for quick and easy set-up
- Designed to protect the syringe from bacterial contamination
- Average time to set up and prime: less than 3 minutes

SPECIFICATIONS

12 in. x 7.5 in. x 2.75 in.
Weight: 0.95 lb

...fulfilling YOUR complete Medical & Material logistics requirements!

North American Rescue® is ***THE market leader*** for designing, producing, integrating and assembling tactical field medical sets and kits ***supporting the services of the Department of Defense, federal agencies*** as well as ***state and local law enforcement***.

Over the past several years, our ability to provide rapid response products and services has aided in the delivery of critical battlefield medical care when and where it's needed most with an ***end result of saving more lives***.

A comprehensive list of supply chain services affords a unique opportunity to North American Rescue's customers in the procurement, assembly, storage and management of their ***complete medical and material logistics*** requirements. NAR maintains a 75,000 square foot warehouse facility which consists of 50,000 square feet for receiving and distribution staging and an additional 14,000 square feet solely dedicated to the assembly room where sets, kits and ***custom medical solutions are built to order***.

Highly qualified logistics and warehouse staff ensure that orders, inventory and distribution processes ***maintain the superior quality standards*** associated with the North American Rescue brand. Our integral partnership with the South Carolina Vocational Rehabilitation ***NISH Partner*** is a pillar in the successful execution of these processes. ■

MIGHTYSAT™ Rx

Fingertip Pulse Oximeter from Masimo

features Masimo SET® Measure-through Motion and Low Perfusion™ Pulse Oximetry which overcomes the challenges of low perfusion and motion artifact that limit conventional pulse oximetry.

This Signal Extraction Technology® (SET®) uses five parallel signal processing engines that measure through challenging conditions allowing users to accurately measure oxygen saturation and pulse rate even during movement or low blood flow.

KIT CONTENTS:

- 1 x MightySat™ Rx Device
- 1 x Lanyard
- 2 x AAA Batteries
- 1 x Carrying Case

microMEND™ Skin Closure Devices

- Easy-to-use alternative to sutures or surgical staples when skin closure is required
- Safe, secure, and rapid skin closure
- Equivalent holding strength to sutures
- Patent pending microstaples anchor the device to the skin
- Three times faster to apply than sutures
- More comfortable and easier to remove than standard invasive methods of skin closure
- Can be used on a variety of lacerations and incisions and with wounds of various lengths, as the product can be applied right next to each other

SPECIFICATIONS

Large

Device:
43mm x W 12mm
Box Wt.: (24) 3.5 oz

Small

Device:
L 32mm x W 12mm
Box Wt.: (24) 3.5 oz
(48) 7.1 oz

X-Small

Device:
L 28mm x W 7mm
Box Wt.: (24) 3.5 oz

Wide

Device:
L 38mm x W 28mm
Box Wt.: (24) 6.9 oz

X-SMALL: Ideal for small areas, such as the fingers, toes, ears, and nose

SMALL: Broadest application for closing most wounds. It is used for closing most lacerations (face, neck, and hands)

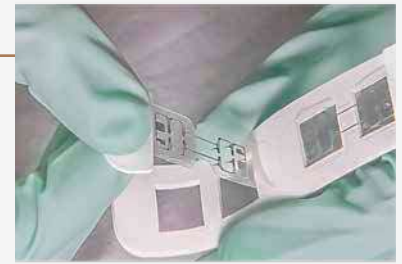

LARGE: For closing larger wounds on the extremities, back, chest, and abdomen. Great for closing hard to repair skin tears

microMEND™ Wide

- Three times wider for easier and faster closure of longer incisions with the same holding strength as other microMend sizes
- Ultra-flexible and elastic making it ideal for use in joint surgeries, Cesarean sections, and other procedures in areas of increased movement and varying skin architecture
- Available with apertures (Wide A) to allow drainage, or without apertures (Wide S) for a solid seal to keep the wound clean from contaminants

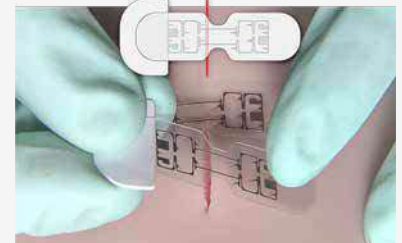

STEP 1:

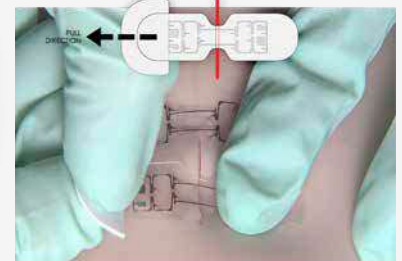

Remove device from packaging by pulling **TAB** upwards

STEP 2:

Position device so the edge of narrow section on the **TAB-side** is over wound. Press **MICROSTAPLE-side** onto skin.

STEP 3:

Pull **TAB-side** across the wound. Press **MICROSTAPLE** of tab-side down onto skin. Remove the tab with a twist.

PEGASUS ROPE®

8MM HAVOC Assault Rope

Innovative Synergy of 2 unique Fibers engineered for unmatched Confidence & Resilience from Ropes in Challenging Environments

North American Rescue & Edelrid, the industry leader in rope manufacturing with 150 years of experience, have joined forces with multi-disciplinary vertical specialists to innovate the **most tenacious small diameter rope on the market today** – engineered to counter the most severe environmental pathologies found throughout full-spectrum operations... whether at work or at play.

The unique material engineering of the 8mm HAVOC core, specifically it's **Innegra™ Braided Fiber Core Integration**, provides **superior durability, low fatigue** properties, an **extremely low specific gravity**, and **superior resistance to the harshest contaminants** (acids, bases, and organic solvents). The novel tensioning and fiber refinement techniques utilized within the **12-braid Innegra™ core amplifies its overall robustness** and resilience providing an operational rope which acts as a counter-measure to anticipated environmental challenges.

This specialized core of the 8mm HAVOC is protected by a higher density, precision double braided **Technora sheath** to synergistically interface with the core for **optimized strength, elongation, decreased creep, heat resistance**, and **operational safety**. To reinforce the **abrasion resistance, cut resistance**, and **overall durability**, the 8mm HAVOC's sheath was bulked up to a **52% sheath ratio**.

EDELRID

in partnership
with

NORTH AMERICAN RESCUE®

Engineered to counter the pathologies innate to the following environments and/or mission sets:

- **Mountain/Rough Terrain Movement & Evacuation**
- **Urban Access, Extraction, & Rescue**
- **Waterborne/Maritime Access & Rescue**
- **Cave/Subterranean Response**
- **Snow/Ice Rescue**
- **Shipboard Response, Rescue, & Evacuation**
- **Canyon Movement & Rescue (Class B & C)**
- **Confined Space Rescue**
- **Wilderness SAR**
- **Wildland REMS**

Wreak HAVOC with Confidence!

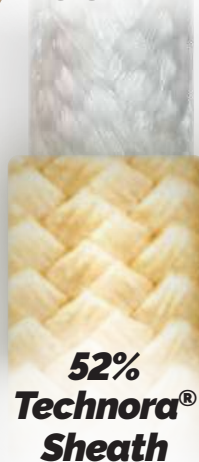

8MM HAVOC ASSAULT ROPE

Specifications:

- Diameter: 8 mm
- Weight: 2.9 lb/100 ft
- Elongation: 300 lb: 3.58%
- 3-Sigma MBS: 5,615 lb (25 kN)
- Fibers (Core/Sheath): Innegra™/Technora®
- Sheath Ratio (by wt.): 52.5%

INNEGRA™
CORE

**52%
Technora®
Sheath**

CORE

- **Innegra™** Lightest Weight Structural Fiber on the market with a very Low Specific Gravity
- Hydrophobic
- Resistant to Harsh Contaminants
- Low Flex Fatigue
- Superior Durability
- Meets EN 564

SHEATH

• **52% Technora Sheath**

- Ratio (by weight)
- The most robust on the market!
- Resistant to Cuts, Abrasion & Heat
- Optimized Strength
- Decreased Creep
- Increased Durability & Safety

PEGASUS ROPE®

WARHORSE™ SERIES

100% Innegra™ fiber braided core

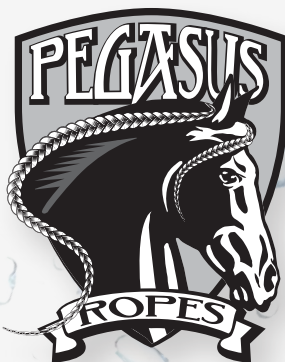

- High quality, multipurpose rope
- Static rope provides reliability, high performance and great handling
- Excellent knot-ability with high strength-to-weight ratio
- Low stretch/sheath slippage – wet, dry or in any other climatic condition
- Ultra-lightweight, strong Innegra™ core for reliable strength, durability & flotation
- Properties remain unchanged even when wet, dry or contaminated with chemicals
- Low dielectric and UV stable

SPECIFICATIONS

Diameter	9.1 mm	9.5 mm
Weight:	4.88 lb/100 ft	3.34 lb/100 ft
Tensile Strength:	5,670 lbf (22.7 kN)	5,100 lbf (22.7 kN)

RESCUE | Rope Kits

R.A.C.E. SYSTEM Rapid Access Casualty Extraction

- Lightweight, multiple use casualty evacuation system enabling first responders/medical providers to ascend, descend, hoist & lower both rescuer & casualty to safety
- Combines 150 ft of lightweight durable 9.5 mm Olympus Pegasus Rope® with the latest in lightweight multipurpose hardware
- Capable of rigging 2:1, 3:1, 4:1, 5:1, 6:1, and 9:1 systems in different configurations for a wide variety of rescuer options with fully illustrated instruction booklet
- Front pocket allows for optional storage
- Carriage options include 4 Point, D-ring configurable modified side and/or backpack carry-style adjustable strap

HELO TAGLINE KIT

- **Help control litter movement during hoist operations** – a requirement on all Army MEDEVAC helicopters
- Contains 250 ft of 7.5 mm Triton Pegasus Rope® featuring a highly visible polypropylene sheath with an Innegra™ core

HELO TAGLINE KIT CONTENTS:

A-VRR *Adaptable Vertical Response Rack Kit*

The Adaptable Vertical Response Rack was designed meet and exceed full-spectrum operational vertical requirements for urban through mountain / canyon access, rescue, and evacuation variables. The kit capabilities were driven utilizing NFPA 1006 (Operations & Technician Level) JPR's and the KPP's (Key Performance Parameters) within the USSOCOM SOF CASEVAC Program framework. The A-VRR Kit's organic versatility allows it to be scaled up to meet all relevant job performance requirements (JPR's) for complex team access and/or rescue or be scaled down for a "fast & light" mission specific assault configuration.

P-A-C-E methodology was engineered throughout the kit design, enabling multiple options for progressive capture and rope grab capabilities depending on the environmental pathology.

- Haul / Mechanical Advantage Capability – Multiple simple, compound and complex configurations ranging from a 2:1 through 9:1
- Full spectrum Friction Configurations for Rappels, Bail-outs, And One or Two Person Lowering Systems
- Traditional and MA-assisted Ascending Techniques
- Multiple Basic and Anchor Configurations to Include Contingency and Releasable Systems
- Load Transfer Capabilities to include Knot Passing on Rappel and within a system and casualty Pick-Offs

IRUPU HARNESS

SPECS

UIAA: Yes

Certification: EN 12277 Type C
Waist: 65-110 cm | Leg Loops Max: 70 cm
Weight: 21.16 oz (600 gm)

- Multi-disciplinary rugged harness for use in operational environments (*Mountain evac, Sub-T, Canyons, & Caves*)
- 2 robust, floating gear loops
- Enhanced stitching and replaceable seat provide uniform protection in environments with abrasion hazards
- Stitched clip-in buckles with tension straps for easy on & off
- Left/ right leg loop markings make it easier to put the harness on correctly
- Large, textile tie-in point

ZZ-0547

ROPE GRAB PULLEY-SPOC by Edelrid®

Ultra-light pulley designed for lifting loads, crevasse rescue operations, or as an emergency ascender

SPECS

Rope Size: 7-11 mm
Weight: 2.12 oz (60 g)
Diameter Pulley: 20 mm

ITEM

90-4005

ROLLCLIP PULLEY Carabiner

Pulley-carabiner with a non-locking gate opening

SPECS

Rope: 7 to 13 mm
Major axis: 20 kN
Minor axis: 8 kN
Open gate: 7 kN
5.25 in. x 3 in. x 1.25 in.
Weight: 3.76 oz

ITEM

90-4006

PIRATE CARABINER

by Rock Exotica®

Ideal as a belay biner at the harness, or as a connector in a system

SPECS

Gate Opening: 25 mm
MBS Major: 26 kN
MBS Minor: 12 kN
MBS Open: 7 kN
H 107 mm x W 71 mm
Weight: 3.09 oz (87 g)

ITEM

90-4003

ROCKO AUTO LOCK

Carabiner by Rock Exotica®

3-stage Autolocking carabiner with intuitive pull-down and twist action

SPECS

Gate Opening: 24 mm
MBS Major: 24 kN
MBS Minor: 11 kN
MBS Open: 6 kN
H 107 mm x W 71 mm
Weight: 2.88 oz (81.65 g)

ITEM

90-4001

ROCKO WIRE EYE

Carabiner by Rock Exotica®

Standard carabiner with the safety and capability of a lanyard pin, or captive eye

SPECS

Gate Opening: 22 mm
MBS Major: 24 kN
MBS Minor: 9 kN
MBS Open: 6 kN
H 107 mm x W 71 mm
Weight: 2.96 oz (84 g)

ITEM

90-4002

ROCKO NON LOCKING

Carabiner by Rock Exotica®

Non locking enhanced Oval biner with Snag-resistant keylock nose design

SPECS

Gate Opening: 25 mm
MBS Major: 22 kN
MBS Minor: 10 kN
MBS Open: 6 kN
H 107 mm x W 71 mm
Weight: 2.36 oz (67 g)

ITEM

90-4022

OMEGALITE 4 WIREGATE

ISO Cold Forged design

SPECS

Gate Opening: 1.10 in. (28 mm)
MBS Major: 26 kN
MBS Minor: 9 kN
MBS Open: 8 kN
L 4.25 in. x W 2.75 in.
Weight: 0.12 lb

ITEM

ZZ-0314

QUICK LINK SCREW LOCK

5mm Oval Stainless Steel Quick Link Carabiner

SPECS

Rod stock
Diameter: 5 mm
Gate opening: 6 mm
Major Axis: 25 kN
H 1.97 in. x W 0.98 in.
Weight: 0.7 oz

ITEM

90-4015

QUICK LINK SCREW LOCK

7mm Oval Stainless Steel Quick Link Carabiner

SPECS

Rod stock
Diameter: 7 mm
Gate opening: 16 mm
Major Axis: 25 kN
Minor Axis: 10 kN
H 3.25 in. x W 1.25 in.
Weight: 2.4 oz

ITEM

ZZ-0544

ALPHA FIX Y SLING

30/60 cm by Edelrid®

Y-Shaped self belay sling for edge restraint, DCD extender, knot passing on rappel, edge transition safety, & hasty pick-offs

SPECS

Load capacity: 23 Kn
CE 0123
Weight: 4.16 oz (118 gm)

ITEM

90-4021

*NOTE:
Not for use as
a via ferrata set

ARAMID CORE BLUE SLING

120 cm by Edelrid®

High-strength sewn Aramid sling ideal as a full-spectrum anchor, harness extension, alternate prusik, & canyon quickdraw for Rig to Raise conversions

SPECS

Load capacity: 22 Kn
CE 0123
Width: 0.24 in. (6 mm)
Weight: 0.78 oz (22 gm)

ITEM

90-4011

BASIC ASCENDER

by Petzl®

Compact ascender with excellent grip for rope ascent on a fixed line or as progress capture in a hauling system

SPECS

Rope Size: 8-11 mm
Weight: 3 oz (85 g)

ITEM

ZZ-0554

GRIGRI 2 BELAY DEVICE

by Petzl®

Compact, ultra-light belay device allowing excellent control during the descent with assisted braking capability

SPECS

Rope Size: 8-11 mm
Weight: 6 oz (170 g)

ITEM

ZZ-0545

MINI MACHINED PULLEY

by Rock Exotica®

Mini pulley with recessed axle screw, machined sideplates & integrated axle for a stronger, compact, snag-free profile

SPECS

Rope Size: up to 11 mm
Weight: 2.9 oz (83 g)

ITEM

ZZ-0548

REVERSO 4

Belay/Rappel device by Petzl®

Regulates the amount of braking friction on the rope according to diameter and condition

SPECS

Weight: 2.08 oz (59 g)

ITEM

ZZ-0546

TRIRIG RIGGING PLATE

by Rock Exotica®

Lightweight, high performance 3 hole rigplate with numbered holes to assist with detailed rigging

SPECS

Break Strg: 36 kN
Weight: 1.8 oz (51 g)

ITEM

ZZ-0553

ROCKD CARABINER

by Rock Exotica®

Narrow asymmetric "D" shape machined frame with snag resistant keylock nose and large, ergonomic angled gate opening

SPECS

Gate Opening: .24 mm
Weight: 2.6 oz (73 g)

ITEM

ZZ-0543

FOOTAPE

Adjustable Foot Loop by Petzl®

Adjustable nylon foot loop for attachment to the BASIC rope clamp for rope ascents

SPECS

Weight: 2.3 oz (65 g)

ITEM

ZZ-0551

ANNEAU SLINGS

by Petzl®

Polyester sling to set up a belay or an anchor

SPECS

TACTIKKA HEADLAMP

ITEM

ZZ-0552

SPECIFICATIONS

Light Output: Min. 5 Lumens
Max: 120 Lumens
(160 Lumens on Boost mode)
Weight: (with batteries) 3 oz

TACTIKKA + RGB

Headlamp by Petzl®

- Ambient Mode: Wide beam with reduced brightness, avoids blinding others in a group situation and provides a long burn time
- Close Range Vision Mode - Mixed beam with wide, uniform flood or 3 colored LED lighting modes (red, green & blue) to remain discreet
- Boost Mode for temporary access to maximum power, 160 lumens (60 m)
- Strobe mode for signaling one's presence; accessible at any time
- Reserve Mode- Burn time management automatically switches on by signaling with blinking light when batteries are almost drained. Red lighting activates to preserve a minimal amount of usage

NAR HEADLAMP

- 100 Lumen LED Light
- Dual color (white and red)
- High and low lighting modes (White)
- Sturdy and simple to rotate single arm bracket
- Large push button for operation
- Splash and water resistant (IPX4)
- Comes with 2 AAA batteries
- 58 hour burn time

NAR HEADLAMP

ITEM #	NSN #

POLAR SKIN™

- The latest cooling technology for effective Human Thermo-regulation
- Polar Skin Mini-Mesh,™ a unique smart textile with a hydrofunctional polymer that allows for liquid absorptive capacity 350% greater than base weight
- ArcticAqua,™ a proprietary solution that prevents rigidity at temperatures well below 0°F while providing the requisite moisture to support evaporative, convective and conductive cooling
- Adheres to current U.S. Army and National Athletic Trainers' Association protocols for heat illness treatment
- Protracted direct cooling of high blood flow regions

COMPREHENSIVE COOLING SYSTEM

- Highly-effective portable cooling system for the treatment of heat-related illnesses
- Scientifically proven to reduce core temperature by .09°F/minute in 100°F heat when used according to protocol

NORTH AMERICAN RESCUE®

Education and Training

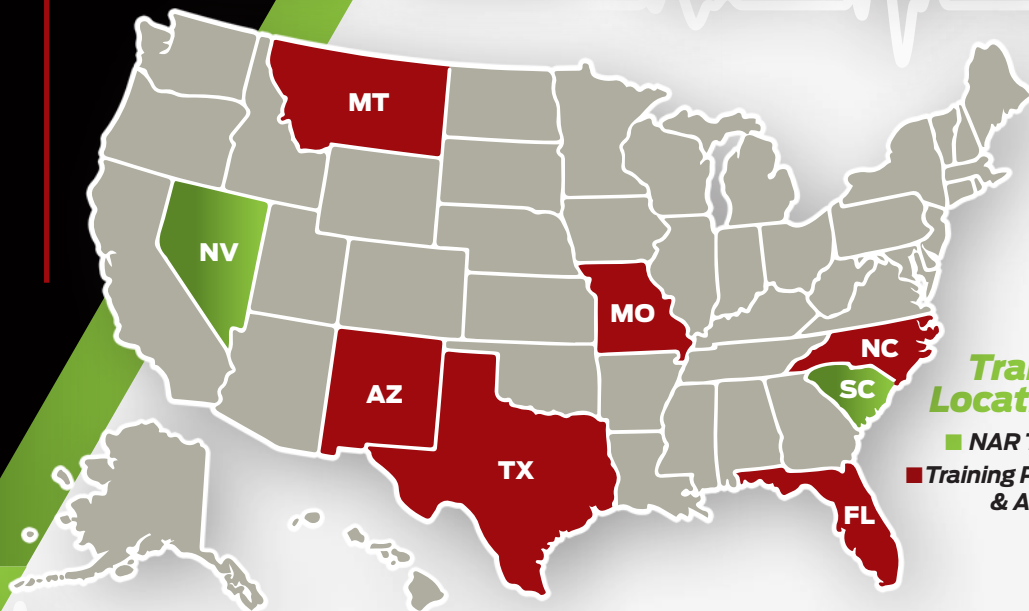

North American Rescue Education and Training (NAR Training)

has roots that run deep and wide in the world of pre-hospital medicine and technical rescue. Our team was built from the ground up on the vision and experience of seasoned military medics seeking to fill the training gaps commonly encountered in the operational environment.

Since then, we have continued to broaden our vision to include other invaluable first responder perspectives such as pre-hospital healthcare providers in civilian, law enforcement, emergency medical services and community public safety initiatives.

CORE Competencies

- Continuing Medical Education (CMEs)
- Prolonged Casualty Care
- Austere Medicine
- Technical Rescue
- Emergency Medical Services
- Critical Care Flight Medicine

Training Locations:

- NAR Training
- Training Partners & Affiliates

ACCREDITATIONS:

American Heart Association®

Now SAME DAY Cards Issued At End Of Course!

COURSES

PUBLIC ACCESS

➤ **NAR BCON**

6-hour course oriented towards civilians; students are exposed to realistic trauma scenarios and taught how to treat major hemorrhaging injuries, receiving critical knowledge on how respond to preventable bleeding deaths prior to arrival of EMS. Stop the Bleed certification issued upon completion.

➤ **First Responder - Work Place Safety**

8-hour course designed for civilians. Students will learn CPR, bleeding control, and basic first aid to the most common workplace injuries. AHA BLS and NAR First Responder certification upon successful test completion.

➤ **Civilian Medical**

3-day medical course designed for civilians. Students will learn basic emergency medicine, med bag packing, and med supply procurement. AHA BLS and NAEMT TECC certification upon successful test completion.

➤ **First Responder - Trauma Care**

8-hour course for law enforcement and first responders that will provide students the ability and confidence to apply trauma care in the field. Upon completion of testing, students receive NAEMT TECC certification.

NATIONAL REGISTRY

➤ **EMT Hybrid**

Self-paced (over period of one year), online learning designed to prepare entry-level student for written and practical application testing for National EMT testing and certification.

➤ **AEMT Hybrid**

Self-paced (over period of one year), online learning designed to prepare EMT student for written and practical application testing for National AEMT testing and certification.

IBSC

➤ **NAR C3**

42-hour in-house course for IBSC critical care course certification or recertification (FP-C or CCP-C) and national registry recertification. Students will learn or refresh all skills and knowledge needed to certify/re-certify, and will earn 42 hours of IBSC and National Registry Continuing Education.

➤ **Vent Hero**

Supporting literature that provides an introduction into the theory of successful ventilation management geared towards the critical care provider and clinician responsible for managing complex patient ventilation support.

➤ **Essentials In Critical Care 4.0**

Online refresher course which exceeds the minimum requirements (above 16 hrs) for approved IBSC certifications.

LAW ENFORCEMENT

➤ **TECC-LE**

8-hour course specifically designed for law enforcement. Covers hemorrhage control, airway control, splinting, extraction techniques, and stop the bleed scenarios. Upon passing test, students receive NAEMT TECC-LE certification.

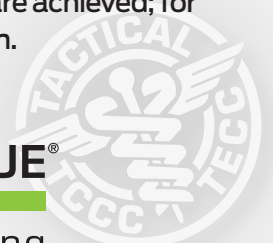

➤ **FEDMED**

5-day course designed specifically for federal law enforcement officers. Students learn how to diagnose and treat various illnesses and injuries utilizing role players and simulations. Upon successful completion, AHA BLS and NAEMT TECC certifications are achieved; for EMTs, this course also serves as a full EMT re-certification.

NORTH AMERICAN RESCUE®

Education and Training

➤ **Phone:** 888.689.6277 ➤ **Email:** NARTraining@NARescue.com

COURSES

MILITARY

➤ TCCC-AC

This 40- hour course is designed for non-medical military personnel that provides a 4 year NAEMT TCCC certification upon completion. Students will learn emergency battlefield medicine focusing on preventable causes of death.

➤ TCCC-MP

This 16-hour course is designed for non-medical military personnel that provides a 4-year NAEMT TCCC certification upon completion. Includes standard training with addition of scenarios utilizing role players and moulage.

➤ EGT-AC

This 5-day course is designed for small military units that provides a 4-year NAEMT TCCC-AC certification. Provides students with TCCC medicine and drills, field maneuvers, and trauma lanes with role players and CASEVAC trainers.

➤ EGT-MP

This 5-day course is designed for military medical provider units that awards a 4-year NAEMT TCCC-AC certification upon completion. Provides students with TCCC medicine and drills, field maneuvers, and trauma lanes with role players and CASEVAC trainers.

➤ SOFMED

This 8-day course is specifically designed for Special Operations Medics that provides the following certifications: BLS, ACLS, PALS, TCCC-MP, and a full NCCP 60-hour CEU/ NRP refresher. Students focus on medicine while enhancing tactics via use of simulations, role players, and trainers.

➤ SOTM

This 8-day course is specifically designed for Special Operations Medics that provides the following certifications: BLS, ACLS, PALS, TCCC-MP, and a full NCCP 60-hour CEU/NRP refresher. Students focus on medicine while enhancing tactics via use of perfused cadavers, simulations, role players, and trainers.

CP MED

➤ Toxic MED 101

2-day course for anyone who may be involved in a CBRN incident. Students will receive critical knowledge and skills on how to respond to incidents involving chemical/ biological/ radiological/ nuclear contaminants. NAEMT TECC certification awarded upon completion.

➤ Toxic MED 201

5-day course designed for medical providers/first responders. Provides background, knowledge and methodologies associated with responding to or supporting CBRN operations with casualties. Students will have the opportunity to receive the AHLS certification if desired. All students will earn NAEMT TECC certification upon successful completion.

ADVANCED

➤ Austere Rescue Course

5-day course aimed at military medical providers and paramedics. Students will receive periods of instruction covering austere medicine, remote rescue, and patient transport in rugged terrain with limited resources. Course will involve treatment and movement in remote environments coupled with challenging problems involving emergency medicine, transport, and elements of PCC.

➤ Austere Surgical Course

5-day course exclusively designed for military surgical teams. Students will utilize perfused cadavers to hone surgical skills in a variety of environments; battlefield conditions and equipment will be incorporated into training to increase proficiency and team skills. SOPs will be tested in preparation for full mission profile event.

➤ Prolonged Critical Care

5-day course that gives military medical providers the knowledge and skills necessary to treat patients in an austere environment for longer periods of time with limited resources when patient evacuation is not tenable.

Students will be instructed on how to keep patients stable with whatever resources are available until transport arrives.

Tactical Operation Medical Manikin SERIES

TOMManikin™

BASIC | BLAST | GSW | WATER | CONFINED SPACE | BURN | CBRNE | FEMALE

Rugged, state-of-the-art training simulators, NARS TOMManikin Series provides the comprehensive solution for enhanced training in Tactical Combat Casualty Care (TCCC) from Point of Injury to transfer of higher care!

- **All-in-one, hyper-realistic trauma simulation solution** enabling instructors to build **multiple realistic traumatic casualty scenarios** with **reactive patients**
Ideal for use in classroom settings, trauma lanes and field training scenarios
- **Multiple, interchangeable extremities** present a variety of wounding patterns to provide **full mission profiles** in **combat scenarios** and **disaster/mass casualty re-creations**
- **Solid metal bones and joints** constructed of **welded steel** for **unparalleled durability** and **quick exchange leg joints** for **flexibility** in the most **austere environments**
- **Proprietary silicone skins** available in **light, medium** or **dark skin tones** that **will not break down** during **prolonged UV exposure** or **extreme temperatures**
- **180 lb** manikin provides extremities capable of **withstanding up to 6,000 lb** of pressure -
Ideal for **building collapse/entrapment training scenarios** beyond conventional exercises
- **Ruggedized remote controls** provide **simultaneous long-range communications** with **multiple NARS devices** all from a **single device!**

SPECIAL FEATURES

Interactive Animatronics:

- Lifelike Breathing Mechanisms
- Functional Anatomical Airway
- Variable Radial Pulse Rates & Pressure
- High Fidelity Bleeding from Multiple Wounds
- Customizable, Multi-language Voice Tracks
- Rugged Softech® Skin in a variety of skin tones

Wireless Controls:

- MILSPEC Wireless Remote Instructor Tablet & Software
- Stand alone point-to-point communications with .5 mile line of site range

Flexible Wound Configurations:

Basic | Blast | GSW | Water | Confined Space | Burn | CBRNE
Custom configurations including Female Anatomy on request

Clinical Interventions available on ALL TOMManikins:

MASSIVE HEMORRHAGE:

- **Tourniquet Application** (proximal, junctional & abdominal)
- **Active Bleeding Control** by **Direct Pressure** on Pressure Points
- **Wound Packing**

ADVANCED AIRWAY:

- **Nasopharyngeal/Oral/Supraglottic Airway Insertion**
- **Endotracheal Intubation**
- **Surgical Airway and Tissue Dissection** with Realistic Bleeding

RESPIRATIONS:

- **Chest Seal Application**
- **Bilateral Needle Decompression**
- **Chest Tube Capable**

CIRCULATION:

- **IO** (sternal & humeral)
- **Antecubital IV Access** on uninjured upper limbs

NORTH AMERICAN RESCUE®

Simulation

Every TOMManikin™ includes:

• ACCESSORY KIT

- 2 x NiMH rechargeable batteries (5-amp & 10-amp) with independent chargers
- 1 x T-handle wrench
- Replacement connectors
- 5-pack of surgical airway neck skins (35 op sites)
- 8 oz concentrated sim blood
- NARS mil spec-rated tablet

- 2 x 3-wheeled transport and storage carriers designed for TOMM
- 1 x NAR IFAK
- **VELCRO UNIFORM**
 - Digital pattern
 - Sand color scheme
 - Blouse features Velcro sleeves and lateral seams
 - Trousers feature Velcro inseam and lateral seams
 - Button fly

MILSPEC INSTRUCTOR TABLET *with Scenario Preset Builder Software*

Features:

- Features proprietary communication link that requires NO Wi-Fi, Bluetooth, or LAN connections
- Simultaneous long-range communications with numerous NARS devices
- NO interference risk with telemetry, avionics, or weapon systems

MILSPEC Rated:

- **Operating:** -20 to 60°C (-4 to 140°F)
MIL-STD-810G, Method 501.5 Procedure II
- **Drop/Shock:** 26 drops from 1.2 m (4 ft)
MIL-STD-810G, Method 516.6 Procedure IV
- **Storage:** -40 to 70°C (-40 to 158°F)
MIL-STD-810G, Method 501.5/502.5 Procedure I
- **Vibration:** MIL-STD-810G, Method 514.6 Procedures I, II
- **Water:** IP65, IEC 60529
- **Sand/Dust:** IP65, IEC 60529
- **Humidity:** 0 ~ 95% (non-condensing)
MIL-STD-810G, Method 507.5
- **Altitude:** 4572 m (15,000 ft)
MIL-STD-810G, Method 500.5 Procedure I

- **Tourniquet Application** (proximal, junctional, and abdominal tourniquets)
- **Active bleeding** controllable by **direct pressure** on pressure points
- **Wound packing** with realistic bleeding control
- **Nasopharyngeal and oral airways, supraglottic airway** insertion and **endotracheal intubation**
- **Surgical airway** with realistic bleeding and tissue dissection 35 operative sites included
- Remote controlled **breathing rates:** Slow, Normal, and Fast
- **Bilateral Needle Decompression** at either 2nd/3rd intercostal (mid-clavicular), or 5th/6th intercostal (mid-axillary) locations
- Realistic **chest seal application** & adhesion
- **Chest Tube** capable (bilateral)
- **Radial pulses** in uninjured upper extremities & bilateral carotid pulses
- **Variable pulse rate & pressure** (Normal, bounding, thready)
- **IO** (sternal & humeral) and **antecubital IV access** on uninjured upper limbs

All Manikins include a MILSPEC-rated instructor tablet

BASIC TOMManikin™

BASIC Wounding Patterns:

- 1. Partial Arm Amputation below the elbow** with Massive bleeding and dramatic soft tissue damage, exposed hard bone and discernible tissue layers Responds to tourniquet application or brachial artery direct pressure application
- 2. Full Amputation Leg** with massive bleeding, extensive soft tissue damage, exposed hard bone, visible tissue layers. Responds to direct junctional pressure and tourniquet application

2

1

BASIC TOMMANIKIN*

ITEM #

93-0035

*Other configurations are available upon request

BLAST TOMManikin™

BLAST Wounding Patterns:

- 1. Open Jaw Fracture Head Skin** with massive maxillofacial bone and soft tissue injuries, actively bleeds. Supports OP/NP/ET/Surgical airways
- 2. Packable Abdominal Evisceration** with intricate handcrafted attention to anatomical detail with visible tissue layers, and 10 in. of eviscerated bowel with peripheral ecchymosis surrounding large open wound. Massive bleeding with "clampable" vessel
- 3. Shrapnel Wound Arm** with active bleeding, multiple soft tissue wounds, responds to tourniquet application
- 4. Full Amputation Leg** with massive bleeding, extensive soft tissue damage, exposed hard bone, visible tissue layers. Responds to direct junctional pressure and tourniquet application

GSW (Gun Shot Wound) TOMManikin™

GSW Wounding Patterns:

- 1. Sucking Chest Wound** with anterior GSW entry & posterior exit. Actively bleeds from both locations. Anterior wound mixes with air from onboard compressor to create bubbling bleeding effect. Supports chest seal application and pleural needle decompression
- 2. GSW to Groin** with GSW anterior entry/posterior exit with soft tissue trauma to penis and avulsed scrotum with prolapsed testicle. Wounds present with peripheral wound site ecchymosis, exposed sub-q fat layer and muscle striation. Entry wound is packable and responds to both peripheral and junctional tourniquet application and femoral pressure point application
- 3. GSW Leg** with through & through GSW to leg above the knee. Entry wound presents with small entrance hole with circular powder burn. Exit wound has exposed fat and wound site ecchymosis. Variable bleeding rate. Responds to both peripheral and junctional tourniquet application and femoral pressure point application. Can be used as an impaled object using steel rebar, or wooden stake
- 4. Full Amputation Leg (Option)**** with massive bleeding, extensive soft tissue damage, exposed hard bone, visible tissue layers. Responds to direct junctional pressure and tourniquet application

*Other configurations are available upon request

Addressing injury locations based on US Army study suggesting females who suffer penetrating injuries to chest, abdomen, pelvis have a higher mortality rates than male colleagues

TAMikin GSW

Female version of TOMManikin GSW, with anatomically correct female features and voice

- Injuries located in sensitive areas such as under breast & pubic area as well as the leg
- Parallels GSW TOMManikin's capabilities & wounding patterns

*Other configurations are available upon request

CONFINED SPACE TOMManikin™

Wounding Patterns:

Sucking Chest Wound with anterior GSW entry & posterior exit. Actively bleeds from both locations. Anterior wound mixes with air from onboard compressor to create bubbling bleeding effect. Supports chest seal application and pleural needle decompression

Partial Leg Amputation below the knee with massive soft tissue trauma and exposed hard bone, muscle and tissue layers.

Shrapnel Wound Arm with active bleeding, multiple soft tissue wounds, responds to tourniquet application

CONFINED SPACE TOMMANIKIN*

ITEM #
93-0110

*Other configurations are available upon request

BURN TOMManikin™

Wounding Patterns:

Burn Face* with 1st, 2nd, 3rd-degree burns to face that supports all airway adjuncts. *Head skin is interchangeable with other TOMManikins*

Burn Arms with 1st, 2nd, 3rd-degree circumferential burns to both arms

BURN TOMMANIKIN*

ITEM #

93-0037

**Other configurations are available upon request*

****Head skin is interchangeable with other TOMManikins**

CBRNE TOMManikin™

Wounding Patterns:

Burn Face* with 1st, 2nd, 3rd-degree burns to face that supports all airway adjuncts. *Head skin is interchangeable with other TOMManikins*

Sucking Chest Wound with anterior GSW entry & posterior exit. Actively bleeds from both locations. Anterior wound mixes with air from onboard compressor to create bubbling bleeding effect. Supports chest seal application and pleural needle decompression

Abdominal Evisceration (Wearable Moulage) with intricate handcrafted attention to anatomical detail with visible tissue layers, and 10 in. of eviscerated bowel with peripheral ecchymosis surrounding large open wound. Massive bleeding with 'clampable' vessel.

GSW to Groin with GSW anterior entry/posterior exit with soft tissue trauma to penis and avulsed scrotum with prolapsed testicle. Wounds present with peripheral wound site ecchymosis, exposed sub-q fat layer and muscle striation. Entry wound is packable and responds to both peripheral and junctional tourniquet application and femoral pressure point application

CBRNE TOMMANIKIN*

ITEM #

93-0038

**Other configurations are available upon request*

K9 Medical Manikin

K9 Features:

- Redesigned all-metal frame
- Expanded joint range of motion
- CPR chest
- 5 interchangeable limbs with various injuries: Complete Amputation, Open Fracture, Soft Tissue Injuries, Road Rash/Burns, & Gunshot Wound
- Improved airway
- Barks, Bleeds & Breathes
- 1L onboard blood capacity
- Wireless operation via NARS tablet

K9 MANIKIN

93-0027

Deluxe ALS KIT

Designed to simulate various vital signs for advanced life support monitoring and simulation

Features:

- Simulated NIBP cuff, SpO₂ finger probe, and ETCO₂ inline detector with waveform and digital value
- Simulated cardiac monitor screen with Lead II tracing rhythm
- ETCO₂ & SpO₂ waveforms, NIBP. Fully functional monitor screen for defibrillation/AED mode, alarms, and rhythm synchronization
- All student-visible values controlled via NARS Instructor tablet (included)
- NARS software includes exportable student evaluation performance documentation

DELUXE ALS KIT

ITEM #

93-0071

Disconnect your student's dependency on instructor "over-the-shoulder" input

PATIENT MONITORING SUITE with NARS Instructor Tablet

NARS Patient Monitoring Suite of simulators can be used in all phases of patient care for any human (role-player), or ANY patient simulator

Features include:

- **NARS Capnograph Simulator**
Designed to be used as a mainstream carbon dioxide monitor that can be connected in-line with a mask or tube. Simulator displays include carbon dioxide partial pressure, respiratory rate and CO₂ waveform.
- **NARS Pulse Oximeter Simulator**
Utilizes the widely used finger-style probe for monitoring blood oxygen saturation. Simulator display includes Heart Rate, SpO₂ and SpO₂ waveforms.
- **NARS NIBP Monitor Simulator**
Designed to replicate a portable NIBP monitor. This simulator allows medical responders to gather vital signs without instructor intervention. Onboard controls allow various modes of operation. Display includes systolic & diastolic pressures (mmHg) and heart rate.

Non Invasive BP Cuff

Includes NARS Instructor Tablet

MOBILE FEEDBACK SYSTEM

**requires
AC power*

**Standalone mobile platform
to capture simulation events***

Features include:

- Pelican 1650 case with custom-cut foam to protect all system components
- 2 x Cameras
- 2 x 72 in. Telescopic Tripods with camera mounts
- 3 x Terabyte stand-alone recorder
- 1 x NARS mil-spec rated Instructor Tablet for wireless communications
- Proprietary software with instructor bookmark/replay feature, simulator status capture, trainee biometric capture, trainee evaluation software (exportable reports)
- 2 x 25 ft. CAT-6 retractable cord reels
- Trainee-worn stress monitor
- Features streaming participant heart and respiratory rate

Wearable Trainee
Stress Monitor

H-60

CV-22

MH-6

CASEVAC Simulators **HELOS**

Features:

- Available in **H60, CV22 & MH6** configurations
- Reusable, all-weather systems
- Includes loudspeakers for inflight noise, smoke generator to replicate inflight emergencies, wind machine to simulate rotor wash
- DOT-rated for over-the-road towing
- Platform-specific options include HD cameras (with playback system), FRIES bar, litter stanchions, blackout window drapes, ICS Kit (with headsets and cords)
